COMPETITIVE PRICES • QUALITY PRODUCTS • FAST DELIVERY

Supplying the **electrical and ventilation** **wholesale** trade since 1970

Formed in 1970, primarily as agents selling on behalf of quality manufacturers supplying the electrical wholesale trade, Frank Russell & Son (FRS) has emerged as a leading distributor of a diverse and quality range of products put together to meet the changing needs of today's competitive wholesale market.

FRS are constantly evaluating and sourcing new products to add to the FRS range, and are fully committed to quality and service.

The partners at FRS share over sixty years' experience, supplying electrical wholesalers with their everyday needs, passing on valuable and expert knowledge.

Operating from extensive premises, and using a computerised stock control system, all telephone sales enquiries can usually be answered 'on the spot', and as we offer an overnight delivery service, all our orders could be with you by the next day. Fast Responsive Service (FRS).

**Competitive prices,

How to order

Downlights

The choice is endless, but remember these three points to consider are; lamp type, colour render and the application. When planning positioning of downlights make sure you have adequate illumination.

- Lamp type
- Led colour render
- Down light application fire rated or open backed
- Fixed, tilt, rotate, IP rated

FIXED, TWIST & LOCK DOWNLIGHTS

Satin

Chrome

White

Brass

GU10, MAINS 240v DOWNLIGHTS

Code:	Description:
FR50HCSN/1	Satin nickel GU10 downlight
FR50HCCH/1	Chrome GU10 downlight
FR50HCWH/1	White GU10 downlight
FR50HCBR/1	Brass GU10 downlight

See page 19 for GU10 LED lamps

MR16, LOW VOLTAGE 12v DOWNLIGHTS

FR50DCSN/1	Satin nickel MR16 downlight
FR50DCCH/1	Chrome MR16 downlight
FR50DCWH/1	White MR16 downlight
FR50DCBR/1	Brass MR16 downlight

Die-cast aluminium fixed downlights

Twist & lock lamp retaining ring for easy lamp replacement

Lamp type: GU10 Halogen lamps 50watt max or LED retro fit lamps

Lamp type: Low voltage MR16 halogen 50watt max

Cut out: 66mm / Bezel dia: 80mm / Depth: 5mm / Void height: 90mm. Not supplied with lamps.

TILT, TWIST & LOCK DOWNLIGHTS

Satin

Chrome

White

GU10, MAINS 240v DOWNLIGHTS

Code:	Description:
FR50HTSN/1	Satin nickel GU10 tilt downlight
FR50HTCH/1	Chrome GU10 tilt downlight
FR50HTWH/1	White GU10 tilt downlight

See page 19 for GU10 LED lamps

MR16, LOW VOLTAGE 12v DOWNLIGHTS

FR50DTSN/1	Satin nickel MR16 tilt downlight
FR50DTCH/1	Chrome MR16 tilt downlight
FR50DTWH/1	White MR16 tilt downlight

Die-cast aluminium tilt downlights

Twist & lock lamp retaining ring for easy lamp replacement

Lamp type: GU10 Halogen 50watt max or LED retro fit lamps

Lamp type: Low voltage MR16 halogen 50watt max. 30 deg tilt

Cut out: 83mm / Bezel dia: 95mm / Depth: 6-18mm / Void height: 110mm. Not supplied with lamps.

IP65 FIXED DOWNLIGHTS

Chrome

Satin

White

Brass

GU10, MAINS 240v DOWNLIGHTS

Code:	Description:
FR501CSDSCH/1	Satin nickel, IP65 GU10 downlight
FR501CSDCH/1	Chrome, IP65 GU10 downlight
FR501CSDWH/1	White, IP65 GU10 downlight
FR501CSDBR/1	Brass, IP65 GU10 downlight

See page 19 for GU10 LED lamps

MR16, LOW VOLTAGE 12v DOWNLIGHTS

FR501CSDSCH	Satin nickel, IP65 MR16 downlight
FR501CSDCH	Chrome, IP65 MR16 downlight
FR501CSDWH	White, IP65 MR16 downlight
FR501CSDBR	Brass, IP65 MR16 downlight

Die-cast aluminium fixed downlights with clear glass

Fixed bezel with twist & lock lamp retaining ring for easy lamp replacement

Lamp type: GU10 Halogen 50watt max or LED retro fit lamps

Lamp type: Low voltage MR16 halogen 50watt max

Cut out: 70mm / Bezel dia: 84mm / Depth: 7mm / Void height: 98mm. Not supplied with lamps.

SQUARE TILT, TWIST & LOCK DOWNLIGHTS

Satin

Chrome

White

GU10, MAINS 240v DOWNLIGHTS

Code:	Description:
FR0609SN	Satin square GU10 tilt downlight
FR0609CH	Chrome square GU10 tilt downlight
FR0609WH	White square GU10 tilt downlight

See page 19 for GU10 LED lamps

MR16, LOW VOLTAGE 12v DOWNLIGHTS

FR0510SN	Satin square MR16 low voltage tilt downlight
FR0510CH	Chrome square MR16 low voltage tilt downlight
FR0510WH	White square MR16 low voltage tilt downlight

Die-cast aluminium square tilt downlights

Twist & lock lamp retaining ring for easy lamp replacement
 Lamp type: GU10 Halogen 50watt max or LED retro fit lamps
 Lamp type: Low voltage MR16 halogen 50watt max

Cut out: 82mm / Bezel: 96x96mm / Depth: 4-16mm / Void height: 98mm / Tilt: 45°. Not supplied with lamps.

CAST WALL WASH DOWNLIGHTS

Satin

Chrome

White

MR16, LOW VOLTAGE 12v DOWNLIGHTS

Code:	Description:
FR0509SN	Satin wall wash downlight. MR16 low voltage
FR0509CH	Chrome wall wash downlight. MR16 low voltage
FR0509WH	White wall wash downlight. MR16 low voltage

Die-cast aluminium wall wash downlights

Spring clip lamp retaining ring for easy lamp replacement

Lamp type: Low voltage MR16 halogen 50watt max

Note these fitting cannot be used with GU10 lamps

Cut out: 95mm / Bezel dia: 110mm / Depth: 3-67mm / Void height: 100mm / Tilt: 90° / Rotate: 350°

Not supplied with lamps.

ADJUSTABLE, TWIST & LOCK DOWNLIGHTS

Chrome

White

Brass

GU10, MAINS 240v DOWNLIGHTS

Code:	Description:
FR50HACH	Chrome GU10 adjustable downlight

Lamps

G4 LED RETRO FIT LAMP

Code:	Description:
LAMP01	Warm white G4 LED lamp - 3000K, 100 Lumen
LAMP02	Cool white G4 LED lamp - 4500K, 110 Lumen

GU10 COB LAMP

Code:	Description:
LAMP1208	GU10 LED COB 5w lamp, warm white. 3000-3500K
LAMP1209	GU10 LED COB 5w lamp, cool white. 6000-6500K
LAMP 1212	GU10 LED COB 6w lamp, warm white. Dimmable 3000-3500K
LAMP 1213	GU10 LED COB 6w lamp, cool white. Dimmable 6000-6500K

GX53 LAMPS

Code:	Description:
LAMP05	LED GX53, 3.5 watt, cool white lamp - 4500K, 320 Lumen
LAMP07	LED GX53, 3.5 watt, warm white lamp - 3000K, 300 Lumen

Kitchen Lighting

The range of products to illuminate your kitchen is very extensive, as are the areas from the floor all the way to the ceiling. You should always illuminate work top surfaces well, ensuring that there is quality and approved lighting for the area. This is important for a surface where you will be preparing food. Kitchen units and flooring can be enhanced by background lighting; this will give a professional effect to the space.

Remember that kitchen lighting products must be fitted with the utmost care. Safety is paramount and if you are unsure about installing kitchen lighting, consult a professional.

Some key features of this section include:

- Plinth lighting for background effects
- Inner cabinet lights for convenience
- Under unit lights – ideal when preparing food
- Over unit lights for show
- Spotlights and linear lighting

UNDER UNIT LIGHTS

PLINTH LIGHTS

OVER UNIT LIGHTS

LINEAR LIGHTING

DOWNLIGHTS

Our range of lighting products to illuminate your kitchen is very extensive, from the plinth to the ceiling we can provide you with quality products. The five key areas to illuminate are under unit which focus light on work tops where food preparation takes place, over unit for general illumination, plinth lighting to set mood & back ground lighting, over cabinets lighting increases overall illumination & ceiling lights whether Fire rated or open back downlights for general illumination.

LED DECK/PLINTH LIGHT KITS

**Code:****Description:****LED2601**

5 light plinth light kit, warm white. Each light 0.4w – 7 Lumens
 IP67. Supplied as a plug and play fit system
 Supplied with 13Amp plug in driver

**Code:****Description:****LED2602**

10 light plinth light kit, warm white. Each light 0.4w – 7 Lumens
 IP67. Supplied as a plug and play fit system
 Supplied with 13Amp plug in driver

SMD LED technology

Walk over only 100 kgs max pressure

15mm bezel dia, 14mm cut out

Cable length on each light is 500mm lead in/500mm lead out

Cable length BS 13 amp plug to driver 1700mm then driver to first plug 400mm

Non dimmable

LED PLINTH LIGHTS

LED PLINTH LIGHTS

Code:

Description:

LED1800

Satin silver 4 light plinth kit with driver

LED satin finish plinth light kit of 4 c/w plug in driver

Each per fitting has 4 LEDs per fitting

White LED, 0.5w per light, 13A plug in transformer – driver.
Cut out: 10mm / Bezel: 38x38mm / Bezel depth: 6mm.

SATIN LED MAINS VOLTAGE UNDER UNIT LIGHTS

LED0701 or LED0702

LED0705 or LED0706

LED0703 or LED0704

Code:	Description:
LED0701SN	Satin mains voltage recessed LED spotlight with 1.5m lead and HV connector. Dia:66mm x 14mm - Cut out: 55mm Lamp ref 3000K Warm White 3Watts
LED0702SN	Satin mains voltage recessed LED spotlight with 1.5m lead and HV connector. Dia: 66mm x 14mm - Cut out: 55mm Lamp ref 4000K Cool White 3Watts
LED0703SN	Satin mains voltage LED spotlight with 1.5m lead and HV connector & surface mounting round base. Dia: 68 x15mm Lamp ref 3000K Warm White 3Watts
LED0704SN	Satin mains voltage LED spotlight with 1.5m lead and HV connector & surface mounting round base. Dia: 68 x15mm Lamp ref 4000K Cool White 3watts
LED0705SN	Satin mains voltage LED spotlight with 1.5m lead, HV connector & stainless steel triangle base. Size: 125mm width max 48mm height max x 138mm length Lamp Ref 3000K Warm White 3Watts
LED0706SN	Satin mains voltage LED spotlight with 1.5m lead, HV connector & stainless steel triangle base. Size: 125mm width max 48mm height max 138mm length Lamp Ref 4000K Cool White 3Watts

Mains voltage under cabinet lights with cool white or warm white LED

Each fitting is supplied with HV plugs for quick installation

We recommend using our 6-way multi connector c/w 13a BS plug as this will aide quick installation time
No transformer or driver required

IP20 120° angle light. SMD 2835 LED technology. 200 Lumens, power 3 watt. Energy efficiency claim A+

Metal surface or recessed cabinet lights

G4 12v halogen fittings. Low voltage transformer must be used

Dia: 74mm / Height: 24mm / Lamp: G4, 20w max, 12v / Cable: 1.5m with amp plug.
Cut out 58mm (for recessing only). These products require LV transformers

ROUND LED UNDER UNIT LIGHTS SURFACE OR RECESS

3 LIGHT LED UNDER UNIT LIGHT KITS

Code:	Description:
LED1600	3 Chrome round kit, cool white LED, c/w driver
LED1600WW	3 Chrome round kit, warm white LED, c/w driver
LED1601	3 Satin round kit, cool white LED, c/w driver
LED1601WW	3 Satin round kit, warm white LED, c/w driver

Dia: 74mm / Height: 24mm / Lamp: G4, 1.5w LED / Cable: 1.5m with amp plug.
Cut out 58mm (for recessing only). These fittings require drivers

SINGLE LED UNDER UNIT LIGHTS

Code:	Description:
LED1602	Single chrome round light, cool white LED
LED1602WW	Single chrome round light, warm white LED
LED1603	Single satin round light, cool white LED
LED1603WW	Single satin round light, warm white LED

Dia: 74mm / Height: 24mm / Lamp: G4, 1.5w LED / Cable: 1.5m with amp plug.
Cut out 58mm (for recessing only). These fittings require drivers

LED DRIVERS

Code:	Description:
LED0601/02	LED driver, 0-6 watt with AMP connection block
LED0602/02	LED driver, 1-15 watt with AMP connection block

Metal surface or recessed cabinet lights

G4 LED fittings. LED drivers must be used. **Do not use LV transformer**

TRIANGULAR LOW VOLTAGE UNDER UNIT LIGHTS

SINGLE TRIANGULAR G4 UNDER UNIT LIGHTS

Code: **Description:**

FR20TCSCH Single satin triangular fitting

FR20TCCH Single chrome triangular fitting

Length: 145mm / width max: 130mm / Height max: 40mm / Lamp: G4, 20w max, 12v / Cable: 1.5m with amp plug. These products require LV transformers

3 LIGHT UNDER UNIT LIGHT KITS

Code: **Description:**

K320TSC Satin under unit light kit, 3 lights c/w transformer

K320TCH Chrome under unit light kit, 3 lights c/w transformer

Metal surface cabinet lights

G4 12v halogen fittings. Low voltage transformer must be used

Length: 145mm / width max: 130mm / Height max: 40mm / Lamp: G4, 20w max, 12v / Cable: 1.5m with amp plug. These products require LV transformers

TRIANGULAR LED UNDER UNIT LIGHTS

3 LIGHT LED UNDER UNIT LIGHT KITS

Code:	Description:
LED1500	3 Chrome triangular kit, cool white LED, c/w driver
LED1500WW	3 Chrome triangular kit, warm white LED, c/w driver
LED1501	3 Satin triangular kit, cool white LED, c/w driver
LED1501WW	3 Satin triangular kit, warm white LED, c/w driver

Length: 145mm / width max: 130mm / Height max: 40mm / Lamp: G4, 1.5w LED/ Cable: 1.5m with amp plug. These products require drivers

SINGLE LED UNDER UNIT LIGHTS

LED1502	Single chrome triangular light, cool white
LED1502WW	Single chrome triangular light, warm white
LED1503	Single satin triangular light, cool white
LED1503WW	Single satin triangular light, warm white

Length: 145mm / width max: 130mm / Height max: 40mm / Lamp: G4, 1.5w LED/ Cable: 1.5m with amp plug. These products require drivers

LED DRIVERS

LED0601/02	LED driver, 0-6 watt with AMP connection block
LED0602/02	LED driver, 1-15 watt with AMP connection block

Metal surface cabinet lights

G4 LED fittings. LED drivers must be used. **Do not use LV transformer**

LED Lighting

LED LIGHT KITS

**Code:****Description:****LED2601**

5 light plinth light kit, warm white. Each light 0.4w – 7 Lumens
IP67. Supplied as a plug and play fit system
Supplied with 13Amp plug in driver

**Code:****Description:****LED2602**

10 light plinth light kit, warm white. Each light 0.4w – 7 Lumens
IP67. Supplied as a plug and play fit system
Supplied with 13Amp plug in driver

SMD LED technology

Walk over only 100 kgs max pressure

15mm bezel dia, 14mm cut out

Cable length on each light is 500mm lead in/500mm lead out

Cable length BS 13 amp plug to driver 1700mm then driver to first plug 400mm

Non dimmable

IP68 LED CIRCULAR WALK OVER LIGHTS

Code:	Description:
LED0101	IP68 circular in-ground walk over light. White
LED0102	IP68 circular in-ground walk over light. Red

- LED Type: 5mm • LED Q'TY: 6 • Beam Angle: 15° • Minimum luminous flux(lm): 30 • Voltage: 220~240V
- LED Watt: 0.5W • Safety Class: II • Safety Type: IP65 • Material: Aluminium • Driver: Included

Body die-cast aluminium with stainless steel bezel

Suitable for pedestrian traffic only
Integral driver 240v supply

Please see page 60 for our range of water proof connectors

IP65 Aluminium body, spring wing clips
Bezel dia: 63mm / Body dia: 46mm / Body dia at cable gland: 67mm / Depth: 74mm / Cut out: 58mm

IP67 LED WALK & DRIVE OVER LIGHTS

Code:	Description:
-------	--------------

LED0201	IP67 White LED circular in-ground walk & drive over light
---------	---

LED0202	IP67 White LED square in-ground walk & drive over light
---------	---

- LED Type: 5mm • LED Q'TY: 15 • Beam Angle: 15° • Minimum luminous flux(lm)75 • Voltage: 220~240V
- LED Watt: 1.2W • Safety Class: II • Safety Type: IP67 • Material: ST304+Aluminium • Driver: Included

Body die-cast aluminium with stainless steel bezel

Plastic box supplied for first fix

Loop in loop out for easy wiring

Suitable for cars & pedestrian traffic only

Integral driver 240v supply

Please see page 60 for our range of water proof connectors

Tempered glass, aluminium body, plastic mounting sleeve, max weight: 2500kg, 240v.

Bezel dia: 108mm / Bezel height: 5mm / Body dia top: 90mm / Body dia base: 57mm / Depth: 74mm

IP65 LED 5 LIGHT WALK OVER KITS

5 LIGHT KITS

Code:

Description:

LED0401CW Cool White, 5 light LED walk over kit

FR9SNSL	Powder coated silver sign light

A classic design of sign lighting perfect for pubs, restaurants and shops

Metal sign lights

Powder coated finish black & silver colours
White reflector for more illumination

20" arm / 9" cowl / Besa fixing plate / 100W ES lamp holder.

Photocells

(dusk to dawn sensors)

Why use photocells?

Firstly, photocells are an economical way of switching lights on and off by using dusk and dawn as the triggers to switch lights on when required and off when not. There are a few points to remember when selecting photocells; after all, it's always good to save on energy costs.

Burning hours: How long are the lights on for?

Standard photocells come on at dusk and switch off at dawn (FRP3 70 Lux on and 105 Lux off). Some of the reasons for having lights on during the night include meeting health and safety requirements and for security reasons. For anyone who doesn't require lights to be switched on for the entire night, you may want to consider a Part-night Photocell. These units switch on at dusk and off at midnight. If required, they can be set to come back on in the early hours of the morning up to 5am.

In the summer your lights might not come on very often due to the brightness of the summer months. However, in the winter, you could expect them to be on a lot more.

Another option is a Night Owl; these can be set to switch off a number of hours after dusk. You can also go for a lower LUX level, this means the lights come on later in the night and go off earlier in the morning, reducing the burning hours.

The next step is to spec the correct photocell to ensure that it can handle the load it is switching. One example is LED flood lights, where the wattages used might be low but the 'inrush' current can be fairly high. This is due to the control gear not having full power-factor corrected gear.

This is only a short summary of photocells & types. If you require any more information, or if you are in any doubt over what photocell you require, please contact our sales office.

Cable Protectors

FRS rubber cable protectors help create a safer environment in your workplace, either in the office or on the shop floor. With a wide range of profile selections available, they help you comply with health and safety requirements and play a major role in preventing accidents caused by loose, trailing cables, air lines or hoses etc.

SELF-EXTINGUISHING ✓

Junction box with smooth sides ¼ turn screws

Code: **Description:**
FR21300 Junction box, IP56 smooth sided box. 105x105x55 EC415C5A

Quick-closing plastic ¼ turn plastic screws

- Bottom & lid made of thermoresistant ABS
- **Quick-closing plastic ¼ turn plastic screws* New linking system of the cover to the box bottom**
- High-resistant soft rubber inner gasket
- Possibility of a double insulation (reference Standard EN 60439)
- Resistance to abnormal heat: up to 960° C (Glow wire test according to the standard IEC 695-2-1)
- Bottom suitable to house brass terminal blocks.
- European manufactured

Distribution Boards

DISTRIBUTION BOARDS

Wall mounting modular enclosures without door

FR20001

FR20002

Code:	Description:
FR20001	Enclosure IP40 dim. 50x130x85 EC61002 1-2 modular enclosure no door IP40
FR20002	Enclosure IP40 dim. 90x130x85 EC61003 2-4 modular enclosure no door IP40

Technical features:

- Pre-cuttings for conduit inlet or cable glands
- Galvanized steel din rail EN 50022
- European manufactured

DISTRIBUTION BOARDS

IP65 Wall mounting modular enclosures with door

FR20201

FR20202

FR20203

FR20208

Code:	Description:
FR20201	4 Modular enclosure, IP65 dim. 150x170x100 EC62004 Supplied with Earth & Neutral bars
FR20202	8 Modular enclosure, IP65 dim. 200x180x100 EC62008 Supplied with Earth & Neutral bars
FR20203	12 Modular enclosure, IP65 dim. 280x220x100 EC62012 Supplied with Earth & Neutral bars
FR20208	18 Modular enclosure, IP65 dim. 400x265x140 EC62012 Supplied with Earth & Neutral bars

Technical features:

- Pre-cuttings for conduit inlet or cable glands
- Galvanized steel din rail EN 50022
- Supplied with blank plastic plates for none used modules
- Self adhesive label for circuit identification
- Screw cap covers to gain double insulation
- European manufactured

FR20206

FR20207

Code:	Description:
FR20204	24 Modular enclosure, IP65 dim. 290x390x140 EC62024 Supplied with Earth & Neutral bars
FR20205	36 Modular enclosure IP65 dim. 400x400x140 EC62036 Supplied with Earth & Neutral bars
FR20206	54 Modular enclosure IP65 dim. 400x650x150 EC62054 Supplied with Earth & Neutral bars
FR20207	72 Modular enclosure, IP65 dim. 420x885x150 EC62072 Supplied with Earth & Neutral bars

Technical features:

- Pre-cuttings for conduit inlet or cable glands
- Galvanized steel din rail EN 50022
- Supplied with blank plastic plates for none used modules
- Self adhesive label for circuit identification
- Screw cap covers to gain double insulation
- European manufactured

Ventilation

Extraction of stale air & condensation from bathrooms & kitchens is a must to stop damp and mould. Good quality ventilation is essential for ensuring that you adhere to building regulations.

A few points to remember:

- Ducting comes in many sizes
- Types of ducting; round or square, solid, flexible, or insulated.
- Make sure you have adequate space to install the ducting.
- Grilles to match the external colour of your building or grilles for use inside your rooms.

Fans & extraction cooker hoods must have the correct size ducting. Please refer to the manufacturers recommended specification.
